YOUR NEW TRAVEL PARTNER

Sailing, of course, but never without them.

Captains with pets ? Instead of letting your pet wait patiently for you... why not get him used to accompanying you on the water ?

Unique and unprecedented, the school propose you to bring your friends during your sailing initiation. Our instructor, who loves animals and shares her life on board with her dog and cat on a daily basis, would like to share her adventure with you by accompanying you in this unique project : sailing with your animals and getting them used to it so that they also become captains.

It's all about habit, his own, and that's where our initiations come in : we get them used to sailing, so that they can also share these moments with you. We can tell you, live that experience is invaluable.

Don't hesitate to contact us for a tailor-made rate, according to your situation and the number of crew members to get on board !

For whom ?

⚓ Dogs, cats, and why not much more. If you are in love with sailing and want to take your most faithful friend with you, we have the solution. He could develop all the best habits, in a reassuring and secure and calm environment.

Why ?

⚓ Since this year the school propose to pet owners the opportunity to take their friends out on the water with them. Whether it is for a unique, one-time experience, to get them used to going on deck or even to want them embarking on any other adventure. It would be a unique and unforgettable opportunity. Discover the open sea and the lake, with you, together. An extraordinary and unique initiation on the lake Geneva.

When can I take him/her along?

⚓ Our services are available all year long, depending on sailing conditions and your availabilities. We organize these trips according to your own crew, as many as they are.
